PROFESSIONAL SUMMARY

Senior DevOps Engineer and Technical Lead with 4+ years of experience in Platform Engineering, Kubernetes orchestration, CI/CD automation, and Reliability Engineering across multi-cloud and on-premise environments. Technical lead for a DevOps team of 8+ engineers while directly managing and mentoring 2-3 interns. Drove infrastructure decision-making, RCA ownership, incident coordination, and sprint planning while defining SLOs and sustaining 99.9% SLA across 15+ production applications. Skilled in Terraform-based Infrastructure as Code, observability, database HA/DR, cost optimization, and supported ISO 27001 and SOC 2 compliance initiatives.

TECHNICAL SKILLS

Cloud & Infrastructure: AWS, OCI, Azure, GCP, Cloud Migration, Disaster Recovery, Cost Optimization, High Availability

Containers, CI/CD & IaC: Docker, Kubernetes, Docker Compose, Jenkins, GitHub Actions, GitLab CI/CD, Terraform, Ansible, Configuration Management, Grype

Observability & Databases: Prometheus, Grafana, Loki, Alertmanager, PromQL, PostgreSQL, Patroni, MySQL, MongoDB, Redis, KeyDB, ClickHouse

Security, Compliance & Systems: Keycloak, SAML/OIDC, SSL/TLS, RBAC, DevSecOps, ISO 27001, SOC 2, Linux, Nginx, HAProxy, DNS, Python, Bash, Git

Process & ITSM: Agile/Scrum, Jira, Freshservice, ITSM, Change Management, Incident Management, Release Management

PROFESSIONAL EXPERIENCE

DevOps Engineer (Acting Technical Lead) — Kochar Innovations Pvt Ltd

Mar 2025 – Present

Amritsar, India

- Technical lead for a DevOps team of 8+ engineers while directly managing and mentoring 2-3 interns; drove task assignment, roster management, sprint coordination, technical guidance, incident coordination, and RCA ownership across 15+ production applications, sustaining 99.9% uptime SLA.
- Planned and executed cloud-to-cloud and cloud-to-on-premise migrations with near-zero-downtime cutover strategies, post-migration validation, and stabilization workflows.
- Drove cloud cost optimization initiatives through rightsizing, idle resource cleanup, and reserved capacity planning, reducing monthly infrastructure spend by 25%.
- Supported ISO 27001 and SOC 2 audit and compliance activities by enforcing access controls, change management workflows, centralized logging, backup validation, and security policy compliance across cloud infrastructure.
- Defined infrastructure standards, deployment patterns, operational runbooks, and platform best practices adopted across multiple application teams, improving deployment consistency and operational reliability.

DevOps Engineer — Kochar Infotech Ltd

Jun 2023 – Feb 2025

Continuous role; company restructured to Kochar Innovations Pvt Ltd with same team and responsibilities.

- Designed and maintained CI/CD pipelines using Jenkins, GitHub Actions, GitLab CI/CD, Terraform, and Ansible, increasing release cadence from bi-weekly to multiple daily deployments.
- Containerized 20+ services with multi-stage Dockerfiles and managed Kubernetes workloads with rolling updates and zero-downtime releases; reduced image size by 60% and deployment time by 50%.
- Integrated Grype-based container vulnerability scanning into CI/CD security gates, blocking critical/high CVE deployments and reducing production vulnerability exposure by 90%.
- Built full-stack observability using Prometheus, Grafana, Alertmanager, Loki, and custom Python exporters across 100+ hosts and 200+ containers with 15+ operational dashboards.
- Architected HA data platforms: PostgreSQL + Patroni, MySQL Group Replication, MongoDB Replica Sets, ClickHouse, Redis Sentinel, and KeyDB with automated backup, PITR, and production readiness runbooks.
- Implemented disaster recovery with automated snapshots, cross-region backup replication, and documented recovery runbooks, achieving sub-30-minute RTO and operational excellence standards.

IT Intern — Kochar Infotech Ltd

Jun 2022 – May 2023

- Built organization-wide monitoring infrastructure from scratch using Prometheus, Grafana, Loki, and Fluent Bit; automated backup workflows to AWS S3; developed Django + MQTT device portal for 50+ devices.

CERTIFICATIONS & EDUCATION

Certifications: Oracle Cloud Infrastructure 2025 Certified Architect Associate • Cloud Architecture – Google Cloud Skills Boost • Google IT Automation with Python – Coursera • Foundations of Project Management – Coursera

Education: MCA, Lovely Professional University, Punjab (2021–2023), CGPA 8.97 • BCA, Dev Sanskriti Vishwavidyalaya, Haridwar (2018–2021), CGPA 8.0, Academic Excellence Award
