PROFESSIONAL SUMMARY

DevOps Engineer with 3+ years of professional experience in production infrastructure, cloud migrations, Kubernetes, CI/CD automation, observability, and cloud cost optimization. Experienced in cross-cloud migration, cloud-to-on-premise transition, Linux systems, containerized workloads, monitoring stacks, and infrastructure automation using Terraform and Ansible.

TECHNICAL SKILLS

Cloud: AWS, OCI, Azure, GCP, Cloud Migration, Cloud Cost Optimization, Disaster Recovery

Infrastructure: Linux, Docker, Kubernetes, Terraform, Ansible, Nginx, HAProxy, Load Balancing, DNS, HA Architecture

CI/CD & Observability: Jenkins, GitHub Actions, GitLab CI/CD, Prometheus, Grafana, Alertmanager, Loki, Custom Exporters

Databases, Security & Scripting: PostgreSQL, MySQL, MongoDB, Redis, Keycloak, SAML/OIDC, SSL/TLS, RBAC, Secrets Management, Bash, Python, Git

PROFESSIONAL EXPERIENCE

DevOps Engineer — KocharTech

Jun 2023 – Present

Amritsar, India

- Own production infrastructure, CI/CD, observability, and cloud operations for 15+ applications, sustaining 99.9% uptime SLA across client deployments.
- Planned and executed cross-cloud migration work, including scheduled downtime windows, near real-time cutover approaches, validation, and post-migration stabilization.
- Supported cloud-to-on-premise migration initiatives involving infrastructure planning, service cutover, data movement, reverse proxy updates, and production readiness checks.
- Built repeatable infrastructure and delivery workflows using Terraform, Ansible, Docker, Jenkins, GitLab CI, and GitHub Actions.
- Containerized 20+ services; managed Kubernetes workloads with rolling updates, zero-downtime release practices, and Grype-based CI/CD security gates.
- Operated monitoring and troubleshooting workflows using Prometheus, Grafana, Loki, Alertmanager, PromQL dashboards, and custom exporters.
- Managed HA data platforms including PostgreSQL + Patroni, MySQL Group Replication, MongoDB Replica Sets, ClickHouse, Redis Sentinel, and KeyDB.
- Optimized cloud spend by 25% through usage review, rightsizing, cleanup of underutilized resources, and cost visibility improvements.

IT Intern — KocharTech

Jun 2022 – May 2023

Amritsar, India

- Built observability coverage using Prometheus, Alertmanager, Grafana, Loki, and Fluent Bit across 100+ hosts and 200+ containers.
- Developed Python exporters and 15+ Grafana dashboards with PromQL panels for infrastructure health, application performance, and alerting.
- Automated Linux home-directory backups to AWS S3 and built a Django + MQTT device management portal for 50+ devices.

Full Stack Development Intern — TheCodeWork

Jun 2021 – Oct 2021

- Developed Django/DRF backend APIs and VueJS/TailwindCSS interfaces for a no-code application platform.

Software Development Intern — All World Gayatri Pariwar

Feb 2021 – May 2021

- Supported bug fixes, feature updates, ERP development, and project documentation for internal software systems.

CERTIFICATIONS & EDUCATION

Certifications: Oracle Cloud Infrastructure 2025 Certified Architect Associate; Cloud Architecture – Google Cloud Skills Boost; Google IT Automation with Python – Coursera; Foundations of Project Management – Coursera

Education: MCA, Lovely Professional University, Punjab, 2021–2023, CGPA 8.97; BCA, Dev Sanskriti Vishwavidyalaya, Haridwar, 2018–2021, CGPA 8.0, Academic Excellence Award
